How VAA Was Founded

"How VAA was Founded" stems from a 10 year long malicious identity theft problem of a single mother with 3 small children.

The story includes break-ins, problems with mail, phone, fax lines, and also computer technology tampering and abuses. The problem came to an abrupt end 6 years ago. So, 16 years ago (when it started) was long before the term "identity theft" was ever even heard of, or any agency knew what to do about it.

We are now looking for a professional movie producer / book writer packager to put out the story to help fund our program. There is a 10 year diary. Please pass this on to professional producers if they'd like the rights to the story; especially if they do packaging. We hope to see it produced as a true suspense story.

Hopefully sometime soon, from this very page, we will be able to direct you to a movie or book with the background story of our organization.
